

We make electric scooter, and make you happy.

electric mobility scooter

COMPANY PROFILE

About Us

Jiebu Electronics Co.,Ltd was established in Wuhan,China in 2008,is a professional developer and manufacturer of electric scooter and bikes.Superior Quality and excellent customer service are our major focus.

Products line

We currently have electric scooter and electric bikes with more than 10models.(MOQ: 1pcs)

- K1 electric folding scooter
- S3 electric motorcycle
- S4 electric motorcycle
- S5 electric motorcycle
- X1 electric motorcycle
- X6 electric kick scooter
- X8 electric kick scooter
- H1 electric kick scooter
- H2 electric kick scooter
- T001 off road kick scooter
- T002 off road kick scooter
- T003 off road kick scooter
- T004 wide wheel scooter
- FS sharing scooter
- S1 sharing scooter
- Super S sharing scooter
- S1 electric bike
- S2 electric bike
- S3 electric bike
- S4 electric bike

Service

- professional team with 5 overseas sales,15 domestic sales, and over 145 qualified workers.
- management accordance with ISO9000 certification.
- with 3 design patents, and 6 Practical patents.
- all products with CE, FCC, SGS and ROHS, MSDS and marine safety report.
- rich experience in overseas marketing and OEM manufacturing from 2009.
- orders inspected by CCIC and BV with final report issued to customer before shipment.

They are always ready to meet your requests.

Backed by our experience and creativity, our products feature reliable and unique functions.

Shipping

- By sea
- By air
- By express (including: DHL, UPS, FEDEX and EMS, arriving at your doorstep within average 8~10days.)

K1 electric folding scooter

Feature

K1 focus on light traffic concept, foldable and flexible design brings a new experience to city commute. Intelligent bluetooth speaker offers more pleasures to your riding experience, foldable design let K1 travel with you in a easy way. Strengthened foldable seat makes your riding safe and sturdy. Aluminium alloy makes it only 18 KG, lighter and stronger than your imagination!

- Max. speed: 25-32 km/h (15.5-20 mph), adjustable
- Max. range: 35-45 km (21-28 miles) per charge
- Max. load: 120 kg (264 lbs)
- Max. Climb: angle 35 degree
- Tire Size: 12.5inch diameter x 2.25inch width
- Motor Type: Brushless geared motor
- Motor Power Rated: 250W, Peak 400W
- Motor Rated Torque: 6.6 N.m

Specification

Battery: 317Wh (36V 8.8Ah) LG Li-ion battery

Over-current protection: $13 \pm 1A$

Controller Low-voltage protection: $30 \pm 1V$

Charging time: 3-5 hours

Charging voltage: AC 110-240V, 50-60Hz

Packaging: double styrofoam + thick brown box

Unfolded Size: 120.0x61.5x98,5 cm (47.3x24.2x35.2 in)

Folded Size: 123.5x53.6x27.0 cm (48.6x21.1x10.6 in)
